962,225

↑26% Increase in Total Visits  
↑27% Increase in Unique Visitors

**Definitions/Notes:** *Please note- Statistics reported do not count internal/corporate traffic.*

**Hits** - Number of hits for the specified time period. Each file requested by a visitor registers as a hit. There can be several hits on each page. Hits are not an accurate reflection of the number of pages viewed. **Please see Page Views below.**

<sup>1</sup>**Visits** - Number of visits to the site during the specified time interval. A visit is a series of actions that begins when a visitor views their first page from the server, and ends when the visitor leaves the site or remains idle beyond the idle-time limit (normally 20-30 minutes).

<sup>2</sup>**(Unique) Visitors** - Number of individuals who visited the site during the report interval. For this monthly report, if someone visits more than once, that person is counted only the first time he or she visits.

<sup>3</sup>**Page View** - A hit to any collection of files making up a single page. This number reports the total number of pages viewed by all users within a given time frame.
